It is not believed by the War Department authorities that such a report actually emanated from army officers, unless it might be some who were endeavering to accomplish some political purpose by it. Prompt sizes were taken to investigate it, however, and a telegram was sent to Brig. Gen. F. A. Smith. commanding the Department of the Missouri, at Omaha, Nebr., directing him to make an inquity. The impression was given in a report from Denver that the authority fer such a statement was one or more army officers stationed at Fort Logan, near that city. Army officers pointed out that upon his own volition Gen. Wood has recently jesued orders requiring all officers, who had not served at least two years within the hast six years with their own regiments, to return to them. This means the explicit of about forty officers who have been on duty in the War Department, at the War College, and other places in Washington, all on staff duty, a number for several years.
